SESSION TEASERS

The following are 100% guaranteed to be part of our session line-up:

1. **HOMESCHOOL** **101**

Presented by Pam Dowling

Join us for a complete introduction to homeschooling when Pam will present every aspect of homeschooling from legal to curriculum and socialization. This is perfect for all new homeschoolers, grandparents and anyone thinking about homeschooling. In many cases one parent is totally on board with the homeschool ideas but the spouse is not so sure. Another reality is that sincere friends or coworkers will present arguments that are not homeschool friendly. These and other issues will be addressed in this all important session.

2. **LEARNING STYLES:**
THE KEY TO A SUCCESSFUL HOMESCHOOL

Presented

by

Martin

Forte

One of the challenging aspects of teaching is to avoid the issue of learning style incompatibility. The natural teaching style of a parent will be determined by their learning styles and if your child's learning style is different than your learning style you will most likely head into the stormy waters of frustration. Learn how to work with different learning styles and have a successful relationship with your children. You will also discover how certain learning styles can often be wrongly labeled as ADHD and what you can do about it. During the session you will be introduced to all aspects of determining learning styles. You are of course aware of modalities, but you will also be introduced to the different types of modalities, dispositions, interests, talents and how environment influences your teaching styles. Martin Forte is a certified Learning Style Coach through the Learning Institute in Ventura.
